## Radio Linked Measuring System

Fast, accurate, and dependable describes this sled monitor system. The total distance is displayed in feet to the nearest one hundredth of a foot. The speed is displayed to the nearest .1 MPH and this system records the total distance and maximum speed for over 130 hooks. A built in MPH alarm can be used for speed limited events. The distance and speed are transmitted "live" to the judges stand. No longer are pace tractors or measurement personnel needed on the track.

**\$1974<sup>50</sup>**

Add **EXCITEMENT** to your next pull!

Too Large for your pulls?

We also offer a Distance Sign with 12" Tall Digits  
48" x 15" x 1" - 13lbs - \$1795<sup>00</sup>

## 18" Distance Sign

The 18" series of LED signs will be the highlight of your pulling event. These signs are definitely large enough AND bright enough for the entire crowd to see, day OR night! Designed to read directly from your M3 Radio linked Sled Monitoring System, simply program in the same radio channel as the unit in the announcers booth and your ready to go. Distance readings are shown "LIVE" as the sled moves down the track.

- Durable Construction
- Size: 72" x 24" x 3" - 55lbs
- Internal Fans to prevent Heat Build-Up
- Sturdy "U" Bolts to hang sign
- Sunlight readable LED's
- Optional wireless keypad for Laser Operators

**\$2495<sup>00</sup>**

\* 12" MPH Sign - 31" x 15" x 1" - \$1195<sup>00</sup>

If you have been to a pull where one of our MPH signs has been in use, then you know first hand that the pullers and the crowd both love this system. This system uses the same sunlight readable 18 inch tall digits that our large distance sign has. The sign reads the actual speed of the sled in 1/10 mph increments live as the sled moves down the track.

**\$1795<sup>00</sup>**

## 18" MPH Sign

After the pull, the sign displays the maximum speed that was achieved during the pull. (The pickup pullers are really excited about this built-in feature) The sign requires our radio

- Durable Construction
- Size: 48" x 24" x 3" - 28lbs
- Internal Fans to prevent Heat Build-Up
- Sturdy "U" Bolts to hang sign
- Sunlight readable LED's

## 5000 lb Weigh Kit
