Reinforced Compressed Fiberglass Composite Hood for Cub Narrow Frame Grille. 100-126

Prt No. LWHood **\$120.75**

Hood works best if you use Dzus fasteners to hold hood down onto grille and steering tower, but can be mounted to grille in the conventional way.

Fiberglass Grille for Narrow Frame Cubs. This grille is a replica of a Cub Cadet 102-122. Will also work for Cub Cadet 70, 104, 124, 86, 106, 126, etc.

Prt No. Grille **\$183.75**

Fiberglass Hood & Grille Assembly
Lightweight fiberglass hood and grille replica for Cub Cadet 08 series Cubs (108, 128, etc). These will also work for the 1000-1650 series Cub Cadets frames. Total weight ranges from 11 to 13 lbs. total (a savings of around 40 lbs verses steel and cast iron). Best if used as a one piece assembly.

Prt No. Hood **\$241.50**

*Hood does not come painted. Sample part shown.

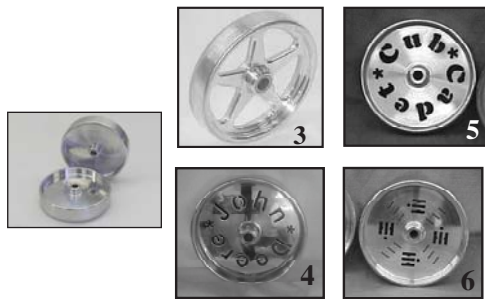

Spring Loaded Pin
You can easily and quickly slide your front weight boom in and out with this spring loaded 3/8" pin. Easily installed. Weld bung on front with bracket.

Prt No. SLP **\$15.75**

COMPUTER CD WITH THREE PROGRAMS FOR MICROSOFT EXCEL **\$15.75**

- 1.) Cub Gear Ratio Chart, calculates for different tire size and RPM. You plug in your information.
- 2.) Rod Length Chart, calculates for any rod, crank, piston and deck height, change it to match your combination.
- 3.) Kohler Engine Chart, calculates Cubic Inch, CC's, compression ratio, rod angle ratio, compression distance and rod length. Set up for any single cylinder motor. Allows any stroke and bore.

Chassis Parts

Billet Wheelie

Wheels
1.5"x6" with 1/2 hole to mount.

Custom Designs available for additional cost. Drawing and programming extra cost. DXF files preferred.

Plain	Prt No. WBW	\$99.75
Spoked Design	Prt No. WBW3	
John Deere Design	Prt No. WBW4	
Cub Cadet Design	Prt No. WBW5	
IH Design	Prt No. WBW6	

Bumper Bars for Wheelie Bars This is an aluminum bumper bar (includes two pieces) for our wheelie bars. Bolts in at rear with bolt to hold the wheelie wheels on and buyer has to install an additional bolt to keep bumper bar rigid. (Bumper bars are good protection from the sled climbing up on rear of tractor (required in some clubs) and to use as a push bar to push tractor around with a four wheeler.) Bumpers are 6" high and designed to work with 6" diameter wheelie wheels. Two styles available.

Plain Bumper Bars	\$26.25/pr.
IH Logo Bumper Bars	\$36.75/pr.

Wheelie Bar Cross Brace for Cub Cadets
This is an aluminum cross brace for our wheelie bars. Bolts in at rear with bolt to hold the wheelie wheels on and buyer has to install an additional bolt to keep brace rigid.

Prt No. WCB	\$31.50
-------------	----------------

Wheelie Bar Kit/Designs Vary

These kits are designed to bolt onto the rear axle housings of a Cub Cadet. The bars are made of 1/4" T65-6061 precision plate aluminum and the height is adjustable. The bars come with no holes drilled for your rear wheelie wheels and you must install cross brace on the bars for side support.

Prt No. WB1 (Lightning Bolt)	\$52.50
Prt No. WBih (IH Symbol)	\$63.00
Prt No. WB-Plain	\$52.50

Chassis Parts

Rolled Aluminum Fender
8" wide x 36" long.

Prt No. Fenders **\$94.50/pr**
